" Whether you're the parent of a child with a reading disability or an educator that works with learning disabled students on a daily basis, you're undoubtedly always looking for new tools to help these bright young kids meet their potential and work through their disability. While there are numerous technologies out there that can help, perhaps one of the richest is the iPad, which offers dozens of applications designed to meet the needs of learning disabled kids and beginning readers alike. Here, we highlight just a few of the amazing apps out there that can help students with a reading disability improve their skills not only in reading, writing, and spelling, but also get a boost in confidence and learn to see school as a fun, engaging activity, not a struggle."

[Winning Words : : : Match Games](http://www.winningwordsapps.com)

<http://www.winningwordsapps.com>

"A great way to challenge your mind and build your memory skills, all while having fun.

Winning Words takes the familiar game of memory match, and adds a fun twist. Instead of matching two pictures, you have to match two synonyms, antonyms or other word combinations! Play against your friends, to see who has the best memory!

These apps have been carefully designed by an experienced educator and can be used at home or in the classroom."

"In this post I am sharing with you an excellent evaluation rubric for iPad applications . I am not sure how many of you have already seen it before, but it has been making rounds online for sometime now. I am definitely adding it to the the iPad rubrics section here in Educational Technology and Mobile Learning. The one I have for you today is probably among the best of all those checklists I have covered here so far. Why ? read it and you will know why."
