Foreign Language

- Duolingo

- Mind Snacks

- Memrise

- iTTranslate

- Google Translate

Duolingo

Use this app to learn Spanish, French, German, Portuguese, Italian and even English! When students create accounts it will sync their data across devices. They can also use Duolingo on a computer.

Mind Snacks

Students can use this app to learn to speak and read a foreign language by playing games. The games are designed to improve vocabulary and conversation skills. There are apps for French, Spanish, Italian, German, Chinese, Japanese and Portuguese.

Memrise

Students can use this app to learn Spanish, French, Chinese, Japanese, German, Russian and more. They can learn the language, culture, history and geography too through using what they call mems.

iTranslate

This app will translate 80+ languages! Students can type in words to be translated. The premium version (in app purchase) includes voice input and output. Word prediction helps to make typing in words easier. You can send translations by email or copy and paste into another app.

Google Translate

Google Translate works with 80 different languages. Students can listen to their translations spoken aloud. Students can speak their words or phrases to be translated and translations can be spoken aloud. You can paste in text that was copied from other apps. You can also write in your own handwriting.

More Foreign Language Apps

• Busuu

• Babbel: French, Spanish

• Word Lens

• Jibbigo

• HelloTalk Language Exchange

• The Free Dictionary

Productivity

- iLife

- iWork

- Microsoft Office

- iTunes U

- Dropbox

iLife

These apps are free with new iPads. iPhoto can be used to organize, edit and share photos. iMovie makes it easy to create a video with titles and transitions. Garageband can be used to record, edit and mix tracks with just a few taps.

iWork

Pages is a word processor that is easy to use and creates beautiful documents, reports and more. Keynote is a presentation tool that allows you to create a great presentation using templates. Numbers is a spreadsheet application that creates tables, charts and more from templates. Look for more free template apps for all of these in the app store.

Microsoft Office

These apps allow you to view Word, PowerPoint and Excel documents on your iPad. To be able to create a document you will need an Office 365 subscription.

iTunes U

This app gives students access to complete courses that have been developed by various educational institutions - all for free!

Dropbox

Dropbox is a service that allows you to save your documents, photos, videos, and other files to the cloud in order to share them easily and have access to them everywhere. You receive 2 GB of space free when you sign up. You can purchase more space. Students can save to a folder you have marked public.

More Productivity Apps

- YouTube
- Chrome
- Wikipanion
- Podcasts
- Google Search
- Adobe Reader
- Prezi

For Teachers

- Class Dojo
- Remind101
- Common Core Standards
- Socratic
- Educreations IWB

Class Dojo

Teachers can use the Class Dojo app to track behaviors and provide feedback to students. There is a Class Dojo site that teachers use to create their classes. Reports can be generated from the data collected. There is a companion student app.

Remind101

This app and connected website provides a safe way for teachers to send reminder messages to their students. Students sign up to receive either text messages or emails. Neither students nor teachers see the others phone number or email.

Common Core Standards

This app provides a quick reference to the Common Core State Standards. Results can be filtered by subject, grade, and subject category.

Socrative

This app provides a free clicker response system. There is a teacher app and a student app. You can create quizzes, exit tickets, multiple choice questions and more.

Educreations

IWB

This app turns an iPad into a recordable whiteboard. It can be used to create a video tutorial, explain a math problem, add commentary to a photo, or diagram.
